

ALTENRHEIN

AVIATION

Altenrhein Aviation AG located at the airport of St. Gallen-Altenrhein/ Switzerland, performs maintenance and repair services (MRO) on Business-, Utility- and General Aviation-Aircraft.

We are looking to recruit experienced

Aircraft Mechanical Engineers with EASA Part-145 licenses (A, B1, B2)

- Candidates should have proven track record in aircraft maintenance on similar aircraft types
- We expect interpersonal skills to act as supervisors / teamleaders
- Candidates must have a reasonable level of spoken and written German and English
- We expect a high level of flexibility to meet our customers demands with regard to aircraft downtime, and off-site support in cases of AOG

We offer an interesting job as member of a skilled and highly motivated team in an expanding and successful aircraft MRO company, located in the surroundings of the Swiss Alps and the Lake of Constance, close to the Austrian/German border.

To apply for this position, please send your CV, copies of your current licenses, and anticipated salary to:
